Sherbrooke, Que., Aug. 20.—Protracted conferences today between three Canadian lawyers retained to oppose Harry Thaw's deportation to the United States indicated that his preliminary arraignment in court would be postponed at least until tomorrow, possibly for a week.

Writ Granted.
Application for a writ or habeas corpus declaring the presence of Harry Thaw in the superior court at Sherbrooke, Que., was granted by Judge Cloutier in his chamber this afternoon. The writ is returnable at ten o'clock tomorrow morning.

The Thaw counsel contended that he had been detained illegally and through habeas corpus he should be set free at once.

Court Crowded.
The supreme court or as locally designated "Le Cour Supérieur" was well crowded long before the proceedings began. Thaw's new chief counsel, Charles D. White, visited the jail and conferred with Thaw and W. L. Shurtleff, the attorney retained at Sherbrooke yesterday. He then announced he would apply for a writ of habeas corpus requiring Thaw's presence in court during the arguments for move promised to delay matters considerably.

Favors Thaw.
Sentiment in Sherbrooke is distinctly in Thaw's favor. A great crowd which greeted him at the station when he arrived from Coalbrook shouted: "Let him go."
"Set him free."
"He has not done anything to us."
"Give him a chance."

Many Women.
There were by count eighteen women in the court room today. They were well dressed, well mannered and quiet. The drag in the proceedings got on everybody's nerves toward 11 a. m. but still the case had not emerged from his chambers. Thaw's attorneys in the meantime were drawing up their applications for the habeas corpus writ.

Keeps Silent.
Thaw persistently refuses to discuss his movements since his escape. As to the identity of the men with whom he was arrested his lips are sealed. The pair were allowed to go when Thaw was detained. It was learned today that they described themselves at the time as Frank Briggs and Dr. Siss. They had met Thaw by chance they said. The police here are inclined to believe their story and do not think any of the quietude who engineered the escape accompanied him.

Mitchell Arrested.
A man, giving the name of "Mitchell Thompson" and believed to be the Roger Thompson, implicated in Harry Thaw's escape, was arrested while loitering about the court house this afternoon.

New Hampshire's Attitude.
Rochester, N. H., Aug. 20.—New Hampshire does not want Harry Thaw within its boundaries. In the event that he reenters the state through deportation proceedings in Canada and legal justification can be found for the act, he will be surrendered promptly to the New York authorities. This declaration was made today by Governor Samuel D. Felker.

To Aid Thaw.
New York, Aug. 20.—George Lauder Carnegie, Harry Thaw's brother-in-law accompanied by Mrs. Carnegie and a New York attorney left here last night

for Sherbrooke, Quebec. They expected to reach their destination tonight. Hasty arrangements for the trip were made after Mr. and Mrs. Carnegie had talked over the telephone with Thaw. At the immigration station Mr. Carnegie was asked if he was going to Canada to aid his brother-in-law.

"You bet I am," was the reply, "and it will be some fight."
Not Going.
Pittsburgh, Pa., Aug. 20.—"I am not going to Canada," declared Roger O'Mara Harry Thaw's guardian, when he arrived at his office today.

Thaw will be given a hearing this afternoon and it will be over long before I could get there. Anyhow Thaw is perfectly sane and with the help of his counsel is capable of looking after this matter himself."

Claim Rewards.
Matteawan, N. Y., Aug. 20.—There are now two claimants for the reward of \$500 offered by Superintendent Kiehl of the Matteawan hospital for the capture of Thaw. The second claim was put in today by John Boudreau chief of police at Coaticook, Quebec. The first claim was R. H. Kelsey, the New Hampshire sheriff who discovered Thaw's identity.

Kiehl today said that he had received a telegram from Chief Boudreau which read: "I claim all rewards for the capture of Thaw and will furnish all law records."

In a Quandry.
The superintendent admitted that he was somewhat in a quandry. Boudreau's claim, he said, probably was based on the fact that the chief of police had made the actual arrest. District Attorney Conger and sheriff Horbeck of Dutchess county are expected to reach Sherbrooke about noon today.

Spends Night in Jail.
Sherbrooke, Canada, Aug. 20.—Harry K. Thaw, fugitive slayer of Stanford White today by a New Hampshire sheriff after his sensational escape from Matteawan spent the night of this little border town and is expected this morning at the urgent request of his family to return to the United States. Light deportation to the United States, George L. Carnegie, his brother-in-law, wired during the night that he was hurrying here with Thaw's sister, Margaret, and requested the authorities to delay all proceedings if possible pending his arrival.

Charles D. White recommended to the family as the most astute lawyer in this place, took charge of the case and at Thaw's arraignment before a commission this forenoon planned to adjourn the proceedings.

Newspaper Friends Arrive.
An army of old acquaintances, as it were, newspaper men, who reported that Thaw's murder trial had been followed the recent criminal insanity proceedings clamored about Thaw's prison cell today. One glance was enough. It was Harry Thaw.

Thaw-like he requested several extra layers of bedding on his cot. Thaw-like he talked of statements he proposed to issue, though for the time he declined to be interviewed. He explained briefly that he had slept well.

"The question of sanity was not embodied in the commitment which will bring Thaw before the immigration authorities here. He is held merely as a fugitive from the penitentiary at Matteawan, where he was confined on a 'criminal charge' for life."

Thaw Sees a Chance.
Thaw himself was quick to see the chance for fighting deportation on such grounds for at Matteawan he was charged with nothing but being insane and having been acquitted of the White murder. Along such lines it was expected his lawyers would seek to bar deportation to New York state.

The immigration officials it was said were aware of this loophole in the commitment and were considering the advisability of changing the charge. However, should they deport him simply as an undesirable alien or a lunatic, it might mean his entering the United States via some other state than New York and this would involve the extradition proceedings within that state, the outcome of which would be doubtful.

Welcomes Sanity Test.
Since his arrival here Thaw money poured into Sherbrooke and an alienist has already been tentatively engaged. Thaw would welcome any test of his sanity it is said as indicated last night in his statement quoted by William Travers Jerome, former district attorney of New York, to the effect that he (Thaw) was a sane man.

The hospital in which Thaw is confined is a roomy apartment within the jail building. It is carefully protected by barred windows and iron doors and is thirty feet from the ground. Two guards remained with him all night.

Needs Pocket Money.
Thaw had only a few cents in his pocket yesterday and was without funds when he wanted to purchase fresh linen this morning. He was flunk about his personal appearance and when a barber had shaved Thaw's four days' growth of beard he said he would like to have a new necktie. He was given money to supply his needs and after brushing the dust off his clothes he said he was ready to appear in court at any time.

Albany, Aug. 20.—Attorney General Franklin Kennedy left for Sherbrooke, Canada, to represent the state in an effort to induce the Dominion authorities to return Thaw to this state.

ROUMANIA CANCELS PROMISES TO JEWS

Government is Taking Measures to
Prevent Them Becoming
Citizens.

[BY ASSOCIATED PRESS.]

Berlin, Aug. 20.—The Rumanian government today promised to cancel citizenship on Jews who fought in the army in the recent campaign against Bulgaria, seems bent, according to the Rumanian press, of restricting its action to the narrowest limit.

The Rumanian war office has just issued notification to several thousand Jews that they were illegally mustered and will be sent home. The citizenship is therefore limited to actual soldiers and will include only 15,000 regulars of the 300,000 Jewish populace.

MISSOURI AROUSED TO IMPROVE ROADS

Thousands of Volunteers Respond to
Governor Major's Appeal for
Better Highways.

[BY ASSOCIATED PRESS.]

Kansas City, Mo., Aug. 20.—Aroused by a new spirit of road-building in Missouri, thousands of volunteers marched forth from every county in western Missouri today to be a part of Governor Major's army of 350,000 strong which in response to his proclamation today began a campaign which it is expected will add one million dollars in betterment to the highways of the state. This is the first state-wide movement in favor of better roads and it is expected to not only mark an epoch in the development of Missouri, but will be followed by other states and thus lead to a general improvement of the highways all over the United States.

"This movement will unite farm and markets," said the road overseers as a message of encouragement to the workers. "It will bring the city and country districts together, and was the reply of the volunteer laborers so brim full of enthusiasm that they need no encouragement."

Let ours be the banner county," was the slogan of every community. No army was ever better equipped for a campaign than that which marched forth prepared for a campaign. Right through the mud in the state have worked for weeks arranging equipment and outfitting the work so that every squad of men was a work without delay or confusion. Every city, town and hamlet represented in the movement and in the farming districts nearly every able-bodied man was enlisted.

Governor and Mrs. Hodges of Kansas came to Missouri to give their active support to the work. They were the guests of Governor and Mrs. Major. The two governors donned overalls and setting out from Jefferson City were among the first to get into the field of action. Mrs. Hodges aided in the distribution of fried chicken prepared by Mrs. Major.

MINNESOTA TOWNS RAVAGED BY STORMS

Towns of Spooner and Beaudette
Scene of Wreckage Caused by
Severe Wind Storms.

[SPECIAL TO THE GAZETTE.]

Beaudette, Minn., Aug. 20.—Spooner and Beaudette were visited by one of the worst storms in years last night and early today. Wires were torn down, and all communication with nearby cities cut off. The smokestack of the International Lumber mill, weighing fifty tons, was blown through the roof of the mill and the plant was put out of commission. The roofing of a hotel was torn off, windows were blown in many places, and one small dwelling in Old Beaudette was turned into a veritable shambles. A considerable anxiety felt as to their safety, but as far as can be learned today they are safe.

At the Engler Lumber company's mill both stacks were blown over, one an eight foot stack which fell across the machine shops and crushed them to the ground.

At Sandstone six men narrowly escaped death when lightning struck the Jepson barn. Twelve horses were burned to death. The men were getting in the barn and had a hard time getting out.

NEW YORK MAN GETS JOB IN PHILIPPINES

Francis Burton Harrison Appointed
Governor General by the
President.

[SPECIAL TO THE GAZETTE.]

Washington, Aug. 20.—Francis Burton Harrison of New York has been selected as governor general of the Philippines. President Wilson will send his nomination to the senate today.

This question will be answered as soon as the school year at the University of Wisconsin opens, when the corps of students in the ancient language classes will work with the ancient language department in an effort to translate them. The clay tablets are the subject of much speculation by students visiting the museum and E. Brown, curator of the museum, said today that no effort would be made to unravel the secret messages until the university was opened, when the work would be undertaken by either Prof. L. B. Wolfson or Prof. F. T. Kelley of the department of languages. Prof. Wolfson expects to get the key for the reading of the tablets from Prof. Albert T. Clay of the University of Pennsylvania, who has translated many of them. The letters on the clay tablet are triangular in shape and are supposed to have been written about 2,000 B. C.

Dr. Edgar J. Banks, the noted Oriental translator, from whom the tablets were purchased, said that he believed that most of them were simple contracts for the purchase of grain. When the tablets were excavated they were purchased by three museums, the British Museum at London, the Metropolitan Museum, New York, and the Wisconsin Historical museum.

BRIGADIER GENERAL MAUS PLACED ON RETIRED LIST

Washington, D. C., Aug. 20.—Under the forty year service law, Brigadier General Marion P. Maus, who has been in command of the first brigade of the first division of the United States army was placed on the retired list today upon his own application.

General Maus comes of a famous military family which has furnished the country with many distinguished fighters. He graduated at West Point in 1874, and in his early career he saw considerable service in campaigns against hostile Indians. For gallantry in action against the Apaches in the Sierra Madre mountains of Mexico in 1886 he was awarded the congressional medal of honor.

During the war with Spain General Maus was an active general of volunteers, with the ranks of lieutenant colonel and was with General Miles at Santiago during the conference resulting at the surrender of the Spanish forces. Later he accompanied the expedition to Porto Rico. He has visited Europe several times to observe the military maneuvers of the leading nations. In 1897 he was one of the representatives of this government at the celebration of Queen Victoria's jubilee.

NEW PROPOSAL TO BE SUBMITTED NOW

FURTHER NEGOTIATIONS AT
MEXICO CITY DEPEND UPON
GOVERNMENT AT
WASHINGTON.

[BY ASSOCIATED PRESS.]

Mexico City, Aug. 20.—Further negotiations looking to a peaceful settlement of the Mexican situation following Provisional President Huerta's rejection of President Wilson's proposals as submitted by his personal representative, John Lind, would appear now to depend upon Washington. If the United States is willing to reopen the controversy there is every reason to believe that the Mexican government would be willing.

Negotiations Continue.
An official statement from Frederico Gamboa, the Mexican foreign minister, says that the negotiations between Mr. Lind and the Mexican government have not been entirely broken off, but that they "are being continued confidentially."

This statement was given to representatives of the Mexican newspapers. A local publication this morning, the first news given to the local press since Monday morning.

Mexico's reply to the United States, while couched in diplomatic language, was a definite rejection of President Wilson's proposals as presented by John Lind.

Await New Proposition.
Unless the Washington government seeks to submit new propositions, it is considered here that the negotiations will be closed. That the Mexican government may do appears largely a physiological problem.

The statement made by Dr. Urrutia, minister of the interior on Monday night, and subsequently denied that the United States had been given until Tuesday night to recognize the Huerta administration, is taken to indicate the attitude of at least a portion of the Mexican government. But the conservative element appears to have won the upper hand and is showing a tendency to continue friendly relations with Mr. Lind.

Lind Optimistic.
Ex-Governor Lind today, awaiting instructions from Washington. He is still optimistic and believes that the Mexican government may yet elect to entertain President Wilson's peace proposals.

Regarding the character of notes exchanged between the two governments, Mexican officials refuse to enter into any discussion. Personal relations between President Wilson's emissary and the members of the government here are friendly. Mr. Lind last night sent the Mexican foreign office a message of condolence over the loss of life in the explosion at Tacubaya, where nearly 100 persons were killed.

Note to Embassies.
The Mexican government today sent a note to all the foreign legations here in which it was stated that negotiations between John Lind, the personal representative of the president of the United States and Provisional President of Mexico, were continuing in a cordial manner.

New Report Denied.
London, Aug. 20.—A categorical denial was given at Lord Cromwell's office today to a report cable to this effect that the Provisional President of Mexico had granted important railroad concessions to an English group headed by Lord Cromwell.

Await Reply.
Washington, Aug. 20.—While the United States government will await John Lind's report of his supplementary negotiations with Huerta officials now going on, there are evidences of what course will be pursued by Washington in the event of absolute rejection by the Mexican government of the American proposals.

That the United States will not recede from the American proposals that it cannot recognize any regime unless a constitutional election is held was reiterated by government officials who discussed the situation with President Wilson. A policy of non-interference in Mexico by continuing to deny arms on both sides, and a withdrawal of Americans from the troubled zone is very likely to be put into effect, though in some administration quarters there was noticeable talk of drastic measures.

Prepare for Emergency.
It is the opinion of some officials that the United States should prepare itself for emergencies. President Wilson has been opposed to any big troop movement lest the intention of the United States be misinterpreted. Other officials take a different view, however. The precautionary measures are necessary.

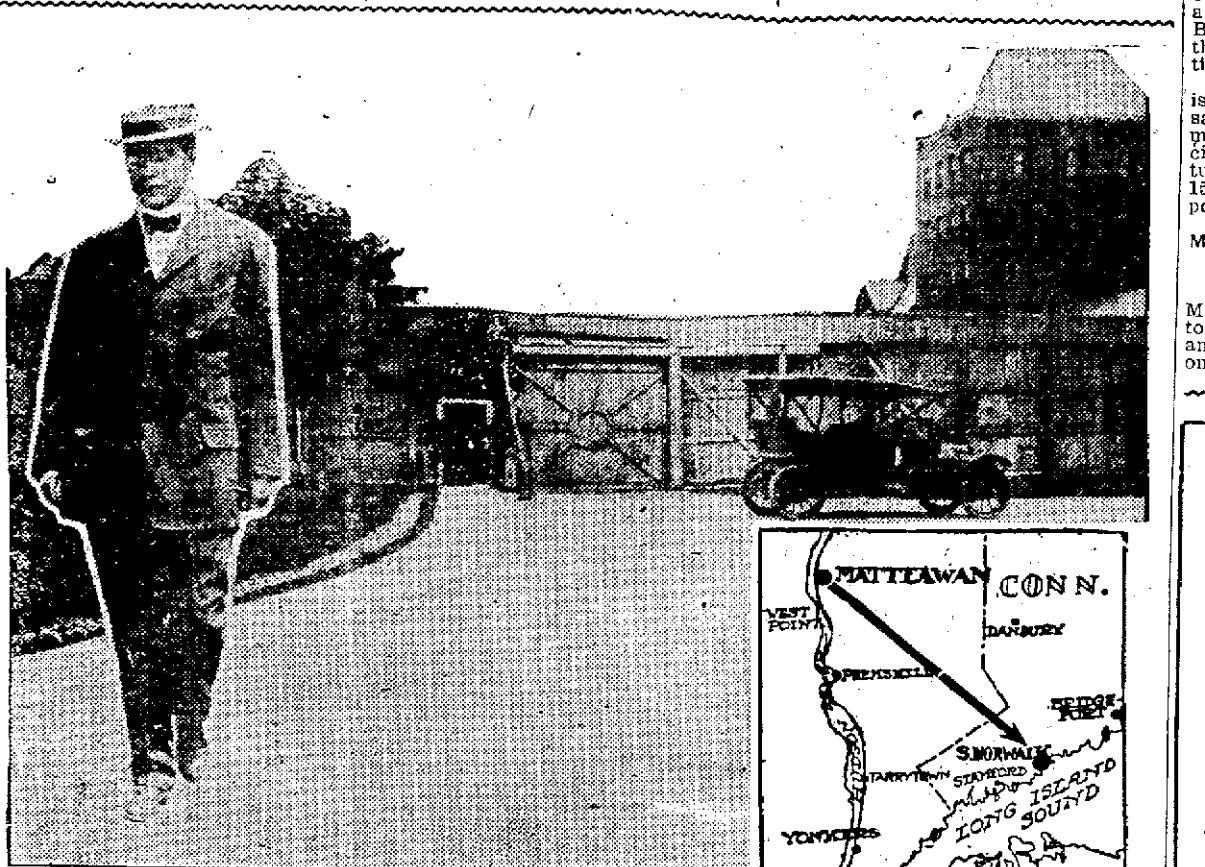

**BRIGADIER GENERAL STEEVER
CLOSES ACTIVE CAREER**

[SPECIAL TO THE GAZETTE.]

Washington, D. C., Aug. 20.—Brigadier General E. Steever, who, as commander of the Department of Texas, has been handling the situation along the Rio Grande, closed his active career in the army today, having been transferred to the retired list by operation of law on account of age. Gen. Steever came to the War Department in 1871. In his early career in the army he saw service in the West and Southwest and participated in many Indian fights. His promotion to a captaincy came as a reward for merit for his service in the field on January 18, 1886. He attained the rank of colonel in 1903 and a year ago was promoted to the grade of brigadier-general and assigned to the command of the Department of Texas.

**ANNUAL FRONTIER CARNIVAL
IN CHEYENNE THIS WEEK**

Cheyenne, Wyo., Aug. 20.—Cheyenne is overflowing with visitors to the annual Frontier carnival which opened today and will continue until the end of the week. An elaborate program of parades and spectacles is prepared. The chief interest, however, centers in the bucking and riding contests for the world's championships.

After spending five years in Matteawan for the murder of Stanford White, and after spending over a million dollars in a vain attempt at his release, Harry Kendall Thaw, in one of the most dramatic escapes that ever occurred at Matteawan, the asylum for the criminal insane, vanished Sunday morning, August 17. The photograph shows that section of the wall at Matteawan and the gate through which the milkman entered and Harry Thaw escaped, and pictures where the high-powered auto bore him away from the place in which he spent the past five years. On the left is a photograph of Thaw as he appeared during one of his innumerable appearances before commissioners, lunacy, in a vain endeavor to convince them of his sanity. The map shows the route of Thaw's flight.

With over \$6,000 offered in premiums and \$6,500 in race prizes, the Green county fair to be held at Monroe Sept. 10-13 promises to be a larger show than ever. The premium money offered is over \$1,000 more than ever hung up in any previous year.

Besides the purse money as an inducement, the track has been put in better condition than it ever was before, a fact that the race horse men will take home with delight. A crew of men and teams will keep at work on the speedway from now on until the last race is over on the closing day.

The fair directors on Monday decided to build a modern race horse barn, 100 by 24 feet, containing twenty stalls 10 by 12, each with an outside door. The directors also appropriated \$400 for bands and a like amount for baseball games.

They voted, too, to extend the paving of East Russell street inside the grounds. A new thirty-foot roller gate has been placed at the main road entrance and the pedestrian entrance has been widened. The ticket office has also been moved back so that the walk extends straight into the grounds, thus preventing the usual congestion at the gate. The first feed and bedding will be donated by the society to live stock exhibitors. The canvas will be replaced on the baseball bleachers.

Arrangements have been made for special train service on both roads running into Monroe. A special will start on the mornings of Sept. 11, 12 and 13 on the I. C. from Warren, Ill. via Preppert and will connect with the Dodgeville line at Red Oak. On the Milwaukee road, a special will be run from New Glarus via Broadhead on Sept. 11 and on the two following days, a special will be run from Janesville.

NEARLY A HUNDRED AT ANNUAL REUNION OF ATWOOD FAMILY

Descendants of Mr. and Mrs. Patten Atwood Gather at Home of Mrs. McCrea, Town of Beloit.

Descendants of Patten and Polly Atwood, early settlers of Winnebago county, Illinois, held their annual reunion today at the home of Mrs. Myrtle Eldredge McCrea, town of Beloit, near the town line bridge. Ninety descendants including seven of the living children of Mr. and Mrs. Patten Atwood were present and enjoyed the elaborate reunion dinner which was served at twelve o'clock and the program which was given this afternoon.

There were four generations present. There were thirty-five members of the family from Rockford and vicinity, ten from Roscoe, thirteen from Beloit and eight from Hebron, Wis. Others who were present were: Mrs. Burr Jensen of Janesville; Levi Atwood, El Paso, Texas; Mrs. Ella Butler, Alva, Okla.; Andrew Wilson and Mr. and Mrs. William Wilson, La Porte, Ind.; Patten Atwood, Jr., La Porte, Ind.; John and Nellie Atwood, La Mars, Ia.; Carrie Montgomery, Monticello, Ia.; Mr. and Mrs. Albert Bent and daughter, Marion, and Bert Pickard, Nashville, Ia.; Emma and Mrs. Charles C. City, Ia.; and Mrs. John Cady of Madison.

The seven children present were: Henry Atwood of Zion City, Ill., the oldest person present, aged 85 years; Philip Atwood, aged 72, the youngest member of the family; John Atwood, La Mars, Iowa; Mrs. Hattie Eldredge, Beloit; Joseph and Patten Atwood of Rockford; and Mrs. Ella Irons, Rockford, and Mrs. Sally Adams, Sullivan Valley, Ill. Mrs. Anna Wilson, Zion City and Mrs. Irene Meyers, Pecatonica, were unable to be present.

At the meeting this afternoon Hon. J. A. Atwood read a memorial for Mrs. Phillip Atwood who passed away since the reunion last year. Patten Atwood, in whose honor this reunion was held, was a son of Joseph and Polly Atwood, who were of Puritanical stock and natives of New England. He was born in the township of Alexandria, county of Grafton, state of New Hampshire, January 5th, 1805.

When Patten Atwood was eleven years of age his parents moved from their New England home to Canada, and settled in what was then a dense wilderness, but is now the garden spot of Canada. They built their log cabin and established a humble home.

There was a religious family and the fathers were taught the precepts of the bible. The old family bible, now more than 100 years old, is still in possession of one of the descendants at Stillman Valley, Illinois.

When Patten Atwood was 15 years of age his father passed away, after eleven months of suffering from injuries which he received while assisting a neighbor to raise the frame of a barn. His mother cared for the family until her death, five years later.

February 24, 1826, Patten Atwood and Anna Brooks were united in marriage. Anna Brooks was born March 20, 1808 and was the daughter of William and Lydia Brooks. For two or three years the young people lived on a farm in Danube, Canada. Later they moved to Exford township, twenty miles distant with their two children, where Mr. Atwood built a saw mill and a grist mill.

The fact that Mr. Atwood was a miller exempted him from military service and he kept his mill running night and day and furnished supplies for rebels and Tories alike, during the insurrection known as the Canadian rebellion.

Mr. and Mrs. Atwood were the parents of fifteen children and at their home in Exford seven children were born, and one little daughter died.

October 1839 they loaded their eight children, their household effects into wagons, and with seven cows and forty sheep started on their journey for northern Illinois of which they had heard much. The night of December first, 1839, they slept at New Bergh, northeast of Cherry Valley, Illinois, and the next morning they started again with Pecatonica in their baggage.

On the evening of the same day they reached the farm of Mr. Donnell, now owned by Fred Pickard, at which place the reunion of 1912 of the Atwood family was held. After moving to Illinois six more children were born, making a family of six boys and nine girls. Harriett, wife of William Eldredge, residing on Fifth street, Beloit, Wisconsin, being the third child. Harriett Atwood, after her marriage to William Eldredge, made her home for many years on a farm near Afton.

The first reunion was held at Rockford in 1911, the second, August 20, 1912, on the Fred Pickard farm north of Rockford, Illinois, and the third at the home of Mrs. Myrtle McCrea, daughter of Mrs. Hattie Eldredge, near town line bridge, near Beloit, Wisconsin, August 20, 1913.

PLAYGROUND PICNIC PROVES SUCCESSFUL

Seventy Young Ladies Have Great Time at Picnic Held at Lake Koshkonong Yesterday.

Seventy young ladies celebrated the first year's picnic with the Janesville with a monster picnic held yesterday at Lake Koshkonong. The majority of the party made the trip by train although a few of them motored to the lake. Swimming formed the principal amusement and it was after a hard struggle that the directors, Finlay and Law, were able to bring their charges from the water. Two games of baseball were played, one in the forenoon and the other immediately after dinner.

The steep sand hill on the beach proved the second attraction to swimming and all the picnickers enjoyed themselves to the limit. Plenty of good things to eat cupped of the affair and all the party declare that they had the time of their lives.

Because of the dereliction of the Fond du Lac passenger train the party were forced to wait until a special train was sent from Janesville to the lake station. As it was necessary to obtain the consent of the officials of the road before the special could be sent, the young ladies did not get to this city until a late hour.

The boys' swimming meet will be held next Wednesday afternoon and plans are being arranged, and judges from the interest that the boys are taking in it will be kept on hand. The boys will be divided into three different groups, each group only being allowed to contest with boys of the same age. No boys over eight years of age will be allowed to compete for the prizes. The events will consist of fifty yard dashes, in crawl, breast and go as you please strokes. Hundred yard dash in the crawl stroke, under-water swim for distance, dives for instance, high and low dives for form.

The girls will hold their swimming class tomorrow at the Goose Island beach and the Webster and Jefferson school boys will wash in a ball game at Riverview park.

REYNOLDS DEPLORES PUBLISHED ARTICLE

Superintendent of Janesville District Of M. E. Church Contradicts Statements Made.

Branding as false published statements which appeared in a Beloit newspaper in regard to the superintendency of the Janesville district of the M. E. church, and in regard to the alleged aspiration of the Reverend John Reynolds, present incumbent, to become pastor of the Beloit church, Mr. Reynolds issues the following statement in contradiction:

In a recent issue of a Beloit Daily paper there appeared an article brimful of speculation on the superintendency of the Janesville district of the Methodist church.

This matter has been extensively copied by other papers in the state, especially those having a circulation within the bounds of Janesville district. The mischief certain to follow the publication of such unscrupulous paragraphs cannot be overestimated, and certainly should be deplored by all interested in the work of the church.

Mr. Leek and Mr. Kohlstedt, whose names are mentioned in the paragraphs, are mentioned in the paragraphs as being certain statements made concerning myself, involving my reputation, and showing, if they are true, that I am grossly unfit to occupy the position I have occupied for the past six years. I am reluctantly compelled to ask for space in your columns to state:

1. The charges supposed to represent the salary are not correct by several hundred dollars.

2. I have never, during my recent visit to Beloit, or at any time, intimated in the remotest way, the name of any person as being the pastor of the terminal church at Fond du Lac. It is reported that two of the passenger cars left the track but no one was injured.

The derailment took place as the train was leaving the yards, and while the train was traveling at an excess rate. Engineer Smith was in charge of the train. The train leaves Fond du Lac at five o'clock and is supposed to arrive in Janesville at nine o'clock.

Summer Literature at Gazette Travel Bureau

Vacation Land.—Handsome piece of literature featuring the lakes of Wisconsin and Minnesota with beautiful illustrations.

The Star Lake Country, Wisconsin.—People planning to visit some northern lake will find this map useful.

Summer Homes.—This booklet describes the various resorts in this state and adjoining states with information regarding hotel rates, transportation facilities, etc.

A Week's Cruise, \$40.00.—A folder describing the lake trip from Chicago to Niagara Falls via Lake Michigan, Lake Huron, St. Clair and Erie, covered by the above figure will be interesting to many people favoring a lake trip.

There is a goodly supply of the literature mentioned above, which has been sent to the GAZETTE TRAVEL BUREAU for distribution.

The Bureau supplies free information about routes and rates to any point and is a subscriber to official railway guide.

Of Interest to Summer Travelers

There is still a quantity of attractive literature regarding summer resorts and the lakes of Wisconsin, Minnesota and Michigan at the Gazette Travel Bureau which has been referred to in previous announcements and in addition a recent supply has just been received.

Words cannot describe the beautiful scenery and delightful retreats illustrated in this literature which is free to the public at the Gazette Travel Bureau.

DAILY MERCHANDISE CAR TO TWIN CITIES

Janesville Commercial Club Makes Valuable Arrangements With C. & N. W. Co., Track Storage Charges.

The Commercial club has arranged with the Chicago & Northwestern railroad company to run a daily through merchandise car from Janesville to Minnesota transfer which will make third morning delivery at Minneapolis and St. Paul. This car will also carry freight for all points in the northwest.

The C. & N. W. have also established fast freight service to Peoria, through car will be forwarded from Janesville daily making second morning delivery at Peoria. This car will also carry freight for St. Louis and southwestern points making third morning delivery at St. Louis.

Cars held for loading, unloading, inspection, reclassification or switching orders on tracks, other than private or industrial tracks, will be subject to track storage charges as per schedule below.

Team Track Storage Charges (Sundays and Holidays Excepted.)

1. No charge will be made for the first forty-eight (48) hours after car is placed on team track. (Time to be computed from 7:00 A. M., after placement, and after the day on which notice has been sent.)

2. For the next succeeding two (2) days the charge will be one dollar (\$1.00) per car per day or fraction thereof.

3. For each succeeding day thereafter the charge will be two dollars (\$2.00) per car per day or fraction thereof.

4. No team track storage charges will be assessed on shipments held in cars owing to weather interference, viz:

(a) When the condition of the weather during the prescribed free time is such as to make it impossible to employ men or teams in loading or unloading, or impossible to move freight to or from cars without serious injury to the freight, the time shall be extended until a total of forty-eight (48) hours from such weather interference shall have been allowed.

(b) When shipments are frozen while in transit so as to prevent unloading during the prescribed free time, such exemption shall not include shipments which are tendered to consignee in condition to unload, under this rule, consignees will be required to make diligent efforts to unload such shipments.

(c) When, because of high water or snow drifts it is impossible to get to cars for loading or unloading during the prescribed free time, this rule shall not apply as a consequence of the exemption from liability for team track storage charges if others similarly situated and under the same conditions are able to load or unload cars.

The foregoing team track storage charges apply in addition to the regular car demurrage charges lawfully on file with the Interstate Commerce Commission.

Will not apply on interstate traffic at stations in Wisconsin.

ENGINE DERAILED NEAR FOND DU LAC

Train Number Twenty-Eight Due Here at Nine O'clock Ditched on Leaving Terminal Yards.

Train Number Twenty-eight on the Chicago & Northwestern railroad was derailed on the scheduled time due in at Janesville at nine o'clock until two thirty this morning because of a serious derailment of the engine at the terminal yard at Fond du Lac. It is reported that two of the passenger cars left the track but no one was injured.

The derailment took place as the train was leaving the yards, and while the train was traveling at an excess rate. Engineer Smith was in charge of the train. The train leaves Fond du Lac at five o'clock and is supposed to arrive in Janesville at nine o'clock.

Today's Evansville News

BIG CROWD ATTENDS
FIRST DAY OF FAIR

Fine Exhibits and Exceptional Attractions Mark County Exhibition Which Opened Today.

[SPECIAL TO THE GAZETTE.]
Evansville, Aug. 20.—Fifteen hundred head of poultry were entered by one Fort Atkinson man yesterday, five hundred of these being state fair exhibits. The Canadian government has erected a tent for exhibition of grains, etc., and twenty six stands and five shows were on the grounds yesterday. Over seven hundred persons were on the grounds, these being solely exhibitors, horsemen and cattlemen. Up to last night thirty-four entries were made in the babies' health contest.

Today was children's day, and the crowds present far exceed those of previous years on this day, and as large as the second day of some fairs. The baseball game was called at 2:30 p. m. Albany vs. Evansville.

Last night the management was as yet undecided as to the best method of racing, the entries in several races being twenty-five and twenty-eight in number. It was thought that the most satisfactory and safe method of disposing of this would be to divide each race up, this being satisfactory to all horsemen present.

Today all babies in Better Baby contest were examined; averages will be made and results announced Friday.

Tomorrow is Edgerton Day and the celebrated Edgerton band will furnish the music. A baseball game between Van Colts of Beloit and the Evansville team will be called promptly at 10:00 a. m. and this promises to be an especially interesting contest, as our boys were defeated by this team by a very small score a short time ago. Beloit scoring solely on errors.

The racing program consists of a three year old trot in which there are ten entries; a 2:24 trot in which there are nineteen entries and a 2:25 pace in which there are twenty-five entries. This racing program is positively the best shown on any Wisconsin county fair program. Besides this there will be rain or shine, two and one half hours of free acts in front of grand stand.

Weather granting tomorrow will witness the greatest crowd ever in Evansville. All hotel rooms are taken and rooms at private houses are at a premium. Horsemen from all parts of the country declare this the best prepared county fair ever witnessed by them and some have gone so far as to compare it very favorably with the state fair.

Applications were received for space for one wild west show and also a show which is to be the feature of the state fair, carrying twenty-eight cars. To these the management was forced to refuse privileges, because of lack of space.

POLITICAL SHAKE-UP.

Apparently there is going to be a political shake-up in the national politics. We are informed by press dispatches that former President Roosevelt will re-enter the republican ranks and seek the nomination for president at the next republican national convention. It is also stated that the leaders of the C. O. P. will seek to prevent this by re-organization of the republican party that will preclude such a possibility. Governor Foss of Massachusetts, three times elected as a democrat, has announced he is now a republican and will seek the republican nomination for governor. In New York state there are two governors, one a democrat elected by the people, another forced into office by Tammany. This speaks a split in the democratic ranks in the Empire state and chances for a republican governor at the next election. Murmur come from Ohio and Indiana and even California forgets the Japanese question at times long enough to discuss politics and republican politics at that. Here in Wisconsin the first steps for the nineteen fourteen campaign have already begun and numerous candidates are mentioned for the republican gubernatorial nomination and there are a profusion of candidates for the job of United States senator to succeed Isaac Stephenson. It is reported that Mr. Stephenson does not wish to again be a candidate, but evidently this is merely gossip, for it is certain that the aged Marinette statesman will not loosen his hold on his seat in the senate unless he has to. Meanwhile Governor McGovern sits in the executive chamber at Madison and quietly organizes his machine for the strenuous days that will mark next year's political activity. It is going to be a merry fight all over the country. Will the elephant swallow the bull moose or will the bull moose swallow the elephant? Will Wilson and Bryan be able to steer the democratic ship of state through the troublesome waters of the tariff debates, the currency problems and the Mexican situation so that they will still have a united party behind them, or will they split on the rocks and the next congress be a republican one with a democratic president at the White House. Matters are moving and the outcome is still doubtful. Meanwhile the democrats in Wisconsin are not less active and it promises to be a most interesting battle to watch from the fence, this campaign of 1914.

THE JUDGESHIPS.

Governor McGovern has informed persons interested in the appointment of a judge to succeed the late Judge Safe that he will probably name Judge Fife, who would take the office any way January first next. He has also intimated his choice for the municipal judgeship to succeed Judge Fife and intimated that he would make the appointments today. There are four candidates for the municipal judgeship in the field. The selection of one of the four will only be for the interim until the next spring election when a successor to Judge Fife will be chosen by the voters of the county, but it is hoped that the governor will make his selection carefully and not be influenced by any political activity in his behalf of any of the candidates in the past. The office of judge of the municipal court is an important one and the right man should be selected just at this time if at no other, owing to the recent recall election and its resulting victory for law and order. It needs a man in sympathy with this side of the question in the office to see that the results gained by the election are fruitful.

THAW CAPTURED.

Thaw and the Mexican situation occupy the front pages of the newspapers these days to the exclusion of other news. Unfortunately for the public, Harry Thaw escaped from the prison asylum he was confined in and is now under arrest in Canada waiting return to the jurisdiction of New York state. The whole sordid story of the wine-dabbling youth, who spent his father's millions like water, lived by wine, women and song, who shot the man whom he alleged had made his wife his mistress in days gone by, is to be rehearsed for the benefit of the excitement-craving public. Meanwhile the world moves on and the public must be kept informed of the latest doings of his mother, his divorced sister, his address wife and all the rest of his relatives. It is unfortunate he got away that he might again break into front page stories the country through.

HUERTA AND LIND.

Evidently John Lind is playing a deep game with Huerta, or Huerta is blinding the eyes of Wilson's special ambassador to the real facts in the Mexican case. Which ever it is, diplomatic Washington would like to know. It is going to be hard work to keep congress still much longer without demanding another board of inquiry as to the Mexican situation and such an inquiry might prove most embarrassing to the democratic administration. John Lind has had experience enough to be a pretty smooth sort of a diplomat, while Huerta has demonstrated that he also is a smooth article himself, so that between these two polished gentlemen in the arts of deception and intrigue, Mexico and the United States may be spared a bloody conflict.

A scientist says: "To keep cool in hot weather, suspend all thought." Possibly that is the reason congress is standing the Washington summer so well.

The man who refuses to go to church in the summer because it is too hot and in the winter because it is too cold, should meditate upon the weather of the future.

The Tammany men in the New York legislature talk about trying Governor Sulzer "with dignity." But what they really intend to try him with is a meat axe.

August is acting up in a way which leads to the suspicion that it is intent upon taking the "r" out of a couple of the oyster months.

Secretary of Labor Wilson has bought an automobile. Perhaps he wishes to qualify further for his position by actual experience.

Mr. McHarg's definition of Colonel Roosevelt as a "conservative radical" is probably appreciated by the protection democrats.

Governor Sulzer recently said: "I am in the street called Straight." Undoubtedly Wall street is grateful for the compliment.

The report that it has been so hot in Kentucky as to drive the colonels to use water for drinking purposes is probably a base slander.

At last the express companies are finding out just what the difference is between cutting melons and cutting rates.

John Lind wasn't afraid to go into Mexico. But in doing so it may have been noticed that he avoided passing through Texas.

To hear the average citizen talk about his home garden you would imagine that he and not his wife took care of it.

Undoubtedly Governor Sulzer can tell a lot of things about Tammany. But will he tell how he came to know them?

Governor Sulzer no longer need seek for the reason why his hair has a tendency to stand straight up.

Still, the porch swing brings more business to the furniture dealers than the automobile.

REPTURE MOVED

Who Can Advise This Poor Chap.
We have received the following from Oskaloosa, Iowa:

"I have to ask you some thing. I know you are a good hand to give advice free for nothing on 'Hints to the Lover.' Now, I am a love-lorn, if I love him means having trouble with my wife which I do much. My wife she ain't much honey and peaches and ice cream like she was before I took the fatal leap with her before the jinks of the piece nine years ago. She is a fren and makes me wash and wipe up the dishes and do all the housework and sewing and mending and sweeping. She don't use no fizical force, but when I don't do what she wants me to do she sets down and cries until I do. She ain't never throwed nothing at me yet but hard words and I hate them worse than bum shells, as I am a tender-hearted man. I have to stay home from the railroad where I work and wait on her and can't make much money. Will you please advise me what I should do."

Very respectfully yours,
A.

Our advice would be to go and apply for a life membership at the home for the feeble minded.

Signs of the Times.
Have you ever noticed how the ice-box door hangs open. One of them is everlastingly open and the hot air from the outside is just eating up your good fees that you have paid for a taxidermian. We have an opinion upon the subject. We believe that the ice trust holds stock in the refrigerator factories and that every ice-box is so made that at least one door will hang open.

A bolt of lightning made an Illinois man walk. Belting on the horses will make almost any man walk.

Henry Few Sessions of Georgia ought to be a good man for the supreme court.

One of Professor Taft's chief consultations is that he doesn't have to live in Washington in this kind of weather.
The chances are that Huerta will have to resign as president of Mexico before anybody had recognized him as such.
The Diary of a Bonehead.
The noblest piece of horseflesh that

my wife and I had ever seen ambled out onto the porch yesterday afternoon right in front of the bandstand to enter in the 2:10 event. That horse actually seemed to look up, single me out of that vast throng and wink at me.

"He is such an intelligent looking horse," said my wife. "I just know he is going to frisk home with the dough."

It was unlike my wife to talk like that and I began to sit up and take notice.

"He has such a pretty face," she continued, "if you are going to bet that \$25 this afternoon, put it all on him. Woman's intuition, you know."

I hunted up a one-eyed bookmaker who had posted odds against this horse longer than a Pennsylvania search warrant but I was banking on woman's intuition and placed the quarter-century on the pretty nag.

It was all over in something less than five minutes. I tried to find the strongest field glasses I could borrow. I finally found him about a half mile back of the field and he was going so slow that every once in awhile he would stop and nibble a bit of grass and then admire the scenery, which I must say is a certainly fine scenery for this time of the year.

When the cloud of dust got around to the grandstand again, the race was won by a nag that looked a great deal like a clothes horse. The good points were sticking out all over him. It seemed as though one could have thrown a cat through him anywhere and not disarrange any of his external or internal economy. He had a nose like a hatchet and you could have played a solo on his ribs with a pair of xylophone mallets. He looked as friendless as a wife beater at a surfboard mass meeting. He had some what the expression of a cat that has been poisoned, drowned and run through a sausage machine but he had copped the huddle.

There are two things to stay away from at a horse race. They are the horse with the merry face and the indescribable thing called woman's intuition.

Heart to Heart Talks

By JAMES A. EDGERTON

GETTYSBURG.

Fifty years!
To us of the younger generation it seems an age. Already the battle of Gettysburg is becoming legendary, a gigantic event of some remote time.

Yet to those who participated it is but a few years since they struggled on Little Round Top, in the Peach Orchard or met the surge of the gray line when it reached the "high water mark of the rebellion."

A short time ago I stood on the battlefield that marked one of the turning points in the history of the race. I rode along the lines, extending miles in length, where in close formation the two armies faced each other. The spring sunshine lay upon the field, gleaming upon the monuments and shimmering off across the grass where once it shimmered on ranks of bayonets. I tried to make it seem real, but the vivid sense of suffering and death would not come at my bidding. Rather, it was like some Homeric epic written in marble and landscape.

Yet, although I could not materialize the scene and realize the horror of it all, a finer something rose out of the battlefield and took possession of me. It was the heroism of it, the self sacrifice, the devotion, the mighty issues decided. I could not think of it as a field of death, but rather as one of life—life to my country, life to liberty, life to a happier and nobler civilization in the long and fruitful centuries of the future. The negative side of the picture was hidden from me, but the positive side, the glory, the poetry, the nobility, the immortal element in it that will be told to the remotest generations, all this was vivid and very present.

Perhaps it was better so, for in very truth it was a field of life rather than death—a field of life even to the men who fell there and who now enjoy a double immortality because of their share in that fate making struggle. The pain and loss were personal, while the gain is national, racial and spiritual. Gettysburg marked not only the high water mark of the rebellion, but the high water mark of heroism.

Who can measure the power of the suggestion carried by its story? It is like a seed sown in the heart of the future that will grow to a crop of high resolves and noble deeds. Already it has inspired one of the classic orations of our tongue. Lincoln spoke here, and his name will ever be linked with that of Gettysburg.

ADMISSION 5c

Although almost everything seems to be going against Gov. Sulzer of New York these days, he still has a few friends who stand loyally by him. Among those who believe that he is simply the victim of Tammany intrigue are some people of Albany who have presented him with a floral horseshoe, on which is the following inscription: "Our Governor: Stand firm. The people believe in you. The attempt to overturn the head of the government is treason."

Music Box

So skillfully arranged to play sweet tunes as is the professional writer's music box to play a tune to tickle his employer and do almost any rag-time catchiness for the public. All of which is unworthy of him. The human organism is much more delicate than any other music box. The trouble is that we wind it up the wrong way. Even with the new laws to regulate advertising, some of the old organs are still playing discordantly. Some of the tunes are three times wrong and badly mixed up. We call the public to witness that as merchants since 1856 we have held to the one idea that the advertiser does not own the newspapers. No! Not even the small part of the space he pays for permits its use to the injury of the public; he has no more right to cause a falsehood or a cunning, misleading scheme to be printed than a bubble company has to sell its stocks through the mails.

COMPLAINT FILED WITH COMMISSION

Action On Charges Against Assistant Fire Chief Murphy Will Be Taken At Early Meeting.
Secretary Arthur G. Jones of the Fire and Police Commission stated today that A. G. Metzinger had filed with the Commission his complaint as to the conduct of Assistant Fire Chief Cornelius Murphy at the fire Sunday morning, and that a meeting would be called within two or three days for the purpose of giving the Assistant Chief and his accuser a hearing. Mr. Metzinger alleges conduct unbecoming an officer on the part of Assistant Chief Murphy. Mayor or Fathers has not yet announced the appointment of a successor to Harry Nowlan, who recently resigned from the Police and Fire Commission. A reorganization will be effected at the next meeting; the office of President now being vacant.

ANNUAL REUNION OF 13TH REGIMENT IN SESSION TODAY

Fifty-eight Old Veterans Register at Forty-third Annual Event at East Side I. O. O. F. Hall.

Fifty-eight veteran survivors of the thirteenth Wisconsin Infantry had registered by two o'clock this afternoon at the East Side I. O. O. F. hall, where they are attending the forty-third annual reunion of the regiment, which was organized in Janesville. The hall is trimmed in pretty decorations together with the dining hall, which was substantially decorated for the occasion. Dinner was served at noon, after which the veterans adjourned to the rest room, to attend the meeting, where the selection of a president for the ensuing year was to be done. The present president, Philip Novack, of this city, in the east, and was unable to be here for the occasion.

It is surprising to note that many of the old veterans have traveled a long distance to attend the reunion. Two from California have reported, while one from Nebraska arrived at noon. The meeting this afternoon was an enthusiastic one. Following the election of officers, the veterans highly told of their experiences on their recent visit to the battlefield at Gettysburg, and of other interesting incidents.

W. B. Clark, secretary of the 13th infantry, who holds this position for the reports that he has received fifty letters from other veterans who are members of the regiment, stating that they were at too far a distance to be here for the reunion.

His wish was to call the attention of the veterans to the fact that the veterans of the regiment have passed away. Among these were Col. William P. Lyon of Racine, who was at the head of this regiment.

Following are the lists of registered veterans who were present at two o'clock today:
Company A: A. J. Cole, Santa Ana, California; C. H. Smith, Janesville; George S. Burton, Academy, South Dakota; Fred W. B. Chiles, Gerald, Iowa; G. M. Gooch, Rockville, Md.; Murphy, Janesville; H. M. Weaver, Janesville; A. R. Thatcher, White-water, Wisconsin; William Monroe, Hastings, Nebraska.

Company B: Lieut. F. G. Baten, Lombard, Ill.; W. H. Cheney, Delavan; James Ward, Beloit; L. H. Martin, Milton; F. B. Hurd, Janesville; S. Schermerhorn, Soldiers' Home, Milwaukee.
Company C: R. E. Swart, Chicago; Charles Markel, Sharon; William Markel, Sharon; Benjamin Levally, Allen Grove, Wis.

Company D: Lieut. D. B. Lovejoy, Evans, Wis.; J. H. Vast, Janesville; William Burk, Santiago, California. Company E reports show no veterans present.
Company F: J. R. Butler, Wausau; J. H. Bliss, Janesville; M. Chamberlain, Rockford; William Marsden, Janesville; George Croft, Lima; Simon Buncie, Veterans' Home, Waukegan; W. H. Butler, Clinton.

Company G: Capt. A. N. Randall, Brodhead; Hugh O'Neill, Soldiers' Home, Milwaukee.
Company H: Myron Hollis, Beloit; Albert Stillman, Lima Center; G. N. Field, Fort Atkinson; C. W. Harrington, Albion; C. J. Miller, Watertown; Peter Elphick, Milton Junction; H. McGowan, Whitehall, Wis.

Company I: Lieut. H. H. Knox, Janesville; W. J. Henry, Poyntelle; Ben Parrish, Delavan; Martin Jones, Cedar Rapids, Iowa; W. H. Welch, Walworth; H. H. Kinlaw, Delavan.
Company K: H. Alvin Alder, Edgerton; D. C. Green, Baraboo; William Bowers, Lima Center; O. C. Garthwaite, Milton Junction; T. Green, Walworth; E. Hindson, Milton; H. Weston, Geneseo; J. N. Webster, Elkhorn; E. O. Burdick, Walworth; J. P. Schofield, Northwood, Iowa; N. A. Drake, Batavia, Ill.; Seth Gillard, East Troy; W. B. Clark, Milton.

Improvement of the Jefferson school lighting by the insertion of additional windows will not be effected this year, according to a statement made by Superintendent E. J. Cameron of the Building Committee of the Board of Education. It was at first thought possible to insert the windows between those now existing without endangering the walls of the building, but the architect found that steel beams would have to be inserted in the walls above each one to insure safety. As considerable delay would be experienced in obtaining the steel beams, the work would have to be completed by September 1, no contractor cared to undertake it. The suggestion was made that the work might be started and continued after the opening of the school, and one room be finished, but this was not thought practical and the improvement will probably have to go over another year. It is expected that the improvements at all the other school buildings will be finished by September 2.

A sound insulated floor and ceiling are being installed in the large vacant room on the second floor of the Lincoln school building. This will be given over to the use of the Industrial School pupils. Work benches are also being put in. A new ventilating shaft and prism glass lights will improve conditions in the basement of the Webster school. The Webster school building is very much torn up at the present time during the renovation and decoration of the walls and extra help has been engaged to hasten its completion. The new tin roof is being put on over the gymnasium and new metal eave troughs placed. This is dangerous work which no local men were willing to undertake and the contractor was obliged to secure outside help.

**LARGE GRAIN YIELDS
AT THE COUNTY FARM**
Banner grain yields for Rock county are reported from the county farm by Superintendent D. M. Barless. Threshing has just been completed with the following returns: Thirteen acres of soft pedigree oats bring 1,025 bushels or 72 bushels per acre; twenty acres of Swedish oats yield 1,220; acres of pedigree oats bring 1,025 and forty-three acres of pedigree barley yielded 1,600. These are the best yields of the season thus far reported.

GOVERNOR APPOINTS FIFIELD AS JUDGE OF THE PROBATE COURT

Makes No Appointment As Yet For Municipal Judgeship Left Vacant By Fifield's Promotion.

Late this afternoon Governor McGovern appointed Judge Charles L. Fifield as judge of the Rock County Probate Court to succeed the late Judge Sale. The governor stated that he would make the appointment as judge of the municipal court to fill the vacancy caused by Judge Fifield's retirement until later.

Ever since Judge Fifield's election last spring to the office of probate judge, his term to start January first, there have been four candidates for the office of municipal judge. Edwin F. Carpenter, Charles Lang, Stanley D. Tallman and Harry Maxfield. Friends of the various candidates have imported the claims of their candidates upon the Governor and today several delegations have visited the governor in the interests of the several candidates.

A Madison dispatch says: Madison, Wis., Aug. 20.—Charles L. Fifield was appointed by Governor McGovern this afternoon to fill out the unexpired term of Judge Sale, deceased. The governor said that his appointment of municipal judge to succeed Fifield would be made today.

The municipal court judgeship contest occupied Governor McGovern all the morning and at 12:30 friends of E. F. Carpenter were still in conference with the executive.

Those who were with Mr. Carpenter and the Governor at the conference were E. D. McGowan, James A. Flemers, W. H. Dougherty and F. L. Callahan.

M. P. Richardson and John J. Comstock who sought to urge Lange's appointment were waiting to see the governor.

The delegation that called on the governor today showed strong opposition to Harry Maxfield, former city attorney of Janesville who is also a candidate for the municipal judgeship. The other names that have been placed before the governor are Charles H. Lange and S. D. Tallman.

**WITNESS DISAPPEARS;
CASE IS ADJOURNED**
Lillian Ambrose, Who Made Shocking Charges Against Her Father, Cannot be Located.

Lillian Ambrose, who has preferred revolting charges against her father, William Ambrose, disappeared late last night from her home on Ringold street. She could not be found up to noon today, in her room at the recently District Attorney Duwield asked and was granted an adjournment of the examination of Ambrose until Friday next. If the complaining witness can not be located by that time it is probable the case against the defendant will be dismissed.

Mystery surrounds the disappearance of this Ambrose girl. Her mother, Mrs. Ambrose, who is well known as a witness, professes to be in complete ignorance of her whereabouts. She left a note in her bed stating that she had gone away and telling her mother not to worry as she was a good girl. The defendant was questioned when brought into court this morning. He declared that he did not know where his daughter was, and had instructed no one to spy her away. He was taken to jail to await trial, not yet having been able to secure bail. The police are making efforts to locate the complaining witness who may not have left her home on her own volition.

The case of the versus James Chessman and Matthew Taylor, set for today, was again postponed until next Tuesday on the motion of Attorney John L. Fisher, who appears for the Chessman, and the city clerk in securing his liberty while he is awaiting trial Judge Fifield this morning reduced the demand for his bail bond from \$250 to \$150 and from two securities to one. Taylor will attempt to take advantage of this provision. Chessman has been out on bail since Monday morning.

The state of Wisconsin versus Charles Doering, charged with making an assault upon Rush Ingham, been adjourned a week. That of Fred S. Thompson versus Mrs. Anna McNeil to recover money stolen from his room in the Myers Hotel, will be tried next Monday. Readings were filed yesterday by Attorney Stanley Tallman for the plaintiff and Attorney Thomas Nolan for the defendant.

BRIEF LOCAL NEWS.
Kitchen Shower: Mrs. J. P. Schoff of Janesville and Miss Minnie Bebling of Town Line, gave a kitchen shower last evening in honor of Miss Abigail Kueck, who is soon to become a bride. Twelve young ladies attended the affair and the party was held on the lawn at Miss Bebling's home.

Seriously Ill: Mrs. Owen Gowers of Atton is reported to be very seriously ill.

Returns from California: Wallace C. Mills, son of Dr. and Mrs. James Mills, returned today from California. Mr. Mills graduated from the Leland Stanford University two years ago, a chemical engineer. Since his graduation he has been in the employ of the Pacific Gas & Electric Co. of San Francisco. He has been employed in mining, distribution and construction departments. Mr. Mills has been away for the last three years.

MAKE GOOD HEADWAY IN WORK ON BRIDGE

Piles All Driven For North Foot-bridge—Structure Will be Completed Before End of Week.

Good progress is being made by the bridge crew of the Gould Construction company. All the piles for the north temporary bridge have been driven. There are fourteen of them and today workmen sawed off the tops of them to the proper height. To put the light superstructure, the braces, stays, floor rafting and fenders will only be about two days' work or possibly three. The new foot-bridge stands only about three feet north of the old bridge, terminating at the Jackson property on the east and at the Jefferson building on the west. The derrick is moving back to the west end of the bridge to start work on the cofferdam of the west abutment. As soon as the gas company completes its temporary main sewer line, the foot-bridge will be taken out. This will probably be within the next two or three days.

The Electric Light company has been instructed to place a light for the illumination of the bridge. One will also be placed on the north foot-bridge when completed. It has been suggested that when this is done that pedestrians going east use the bridge and those going west the other so as to facilitate traffic and prevent congestions.

W. C. Klerman and Company, awarded the contract for building the Spring Brook bridge on South Main street, where the city ordinance calls for a thickness of twelve inches for the first story and eight inches for the second story. Consequently the council, at its meeting late yesterday afternoon, deferred action on the petition of J. P. Cullen, the contractor who is to erect the building. As he is now nearly ready to pour the foundation it is probable that prompt action will be taken in the matter.

Yesterday's meeting saw the close of the personal injury suit brought against the city by Miss Georgia Glidden. The attorneys for the defendant, Carpenter & Carpenter, and City Attorney W. H. Dougherty reached a settlement and the city clerk was instructed to draw an order for \$25, payable to Miss Glidden, as damages for the injuries she received.

Sidewalks were ordered built on both sides of Racine and Galena streets between the Racine street bridge and South Main and South River streets. The council received and placed on file the report of the Board of Public Works awarding G. D. Cannon the contract to construct curbs and gutters in various parts of the city. Bonds for this work were filed by Mr. Cannon and also by W. C. Klerman & Co., the contractors, who will build the concrete bridge over Spring Brook on South Main street.

The city clerk was instructed to advertise for bids to furnish the city two hundred feet of garden hose for use in the Court House park. Adjudgment was taken until this afternoon.

PETEY BELIEVES IN SILENCE

SPORT Snap-Shots

Johnny Coulon, bantam champ, is roughing it in the Canadian wilds and thus proves himself to be a real wise little guy. Most boxers, both little and big, never give an enormous amount of thought to their bodily health until they feel themselves slipping good and hard. Then it's too late. Coulon feels himself slipping a little, and so he has hid himself away to the wild woods to regain his old time form.

Joe Birmingham, manager of the Cleveland Naps, is playing ball just on his nerve these days. He oughtn't to be in the game at all. His foot, which was broken in May, is in a very bad shape. His condition is a reminder of another Nap star who played on his nerve alone. Bill Bradley, who had spike wounds on both legs from toes to thighs, played through the season of 1908.

Fight promoters ought to know, but they don't always, that mid-summer is no time to draw the branny pugs into the fist arena. The hot months are the games like baseball. The fighting should be done when things are frozen up. Jess McMahon, the New York promoter understands this. During the summer he handles the business affairs of the Lincoln Giants, some colored baseball club. "The boxing promoters of Milwaukee have the right idea and know how to conduct the game," Jess said recently. "There should be no boxing in the summer time. The enthusiasts are all the better for getting a rest and the game is improved immensely. Look how eager everybody is to see baseball in the spring after the long rest of the winter." *

Why does Mugsy McGraw, manager of the Giants, always turn out first division teams? Just because he isn't a standpatter. Just because he

can see when a man is going down and never hesitates to let a man go when it is apparent that that man has seen his best days. There can't be any sentiment in baseball and McGraw hasn't a bit. John McGraw sure is a genius when it comes to replacing his wornout stars without disrupting the team. Devlin, Donlin, Seymour, McGinn, Dahlen, McGinnity, Gilbert, Bowerman, Bresnahan, Warner, Shannon, George Browne, all famous in their day, have been dropped from time to time by McGraw and never has his club finished outside the first division.

No, the Chicago Cubs aren't exactly burning up with love for the little Trojan, Johnny Evers. The difference says outfielder "Mike" Mitchell, who recently was secured from the Cubs by Pittsburgh, and who talks as follows, viz.: "It is impossible for anyone to get along with Evers. I never had a word with any other manager I ever worked for, but I couldn't please Johnny. He seemed determined to get my money, no matter how hard I tried to make good. Nearly every other player on the team feels just the same way as I do about him, but they all have to keep still or be fined all that is coming to them. The feeling that pervades the team is one of resignation, all the boys just simply waiting for the season to be over, when they hope they will be traded elsewhere. There is not a chance in the world for Evers to succeed as a winning manager, for he cannot keep his temper on his team. The difference between working for him and for a gentleman like Fred Clarke is like going from a dark cellar to a bright root garden. I don't know that you can blame Johnny. It is his awful temper, which he cannot control. He was a tremendous relief to me to get away from Chicago and the other boys certainly envied me the chance."

to drive home. The Giants are a bunch of very weak hitters as compared with the Phillies. It is not the batting but the great work of McGraw's pitching staff that has kept New York at the top. Outfielders Wilson and Duncan, who recently were purchased by the Boston Braves from the Dallas club, have been among the heaviest hitters of the season in the Texas league. Jesse Burkett has his Worcester team going at top speed and expects his boys to be resting at the pinnacle when the curtain falls on the New England league race.

"Big Ed" Walsh, of the White Sox, is resting up at the Comiskey camp at Mercer, Wis. It is said the great spitball artist is not likely to be able to return to the game this season. Carl Lundgren, the former University of Illinois player and later a pitcher with the Cubs, has been appointed coach for the University of Michigan baseball nine in succession to the Branch Rickey.

WITH THE BOXERS. Jim Jeffries has offered to train Ad Wolgast and put the former champion lightweight back in the running. Jimmy Dine, the Pittsburgh promoter, is manager of more boxers than any other man in the country. Manager Tommy Burns is anxious to match Arthur Pelkey against Jack Johnson, the bout to take place in Paris.

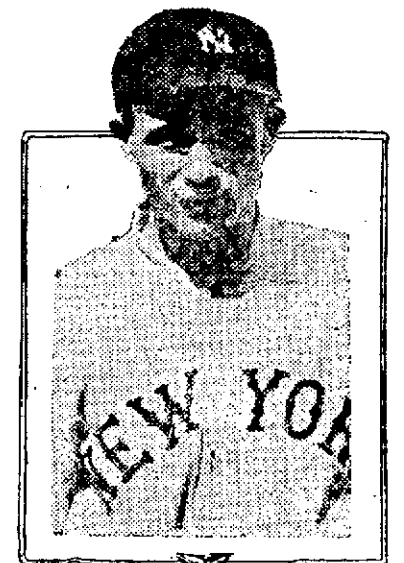

Harry Foley, the former San Francisco boxer, will train Champion Ritchie for his coming bout with Freddie Welsh. Gunboat Smith says he is willing to meet Sam Langford if he is given the big end of the purse. Sam declares he is not in the fighting business for love of the game.

GREAT ATHLETIC MEET OPENS AT NEW YORK

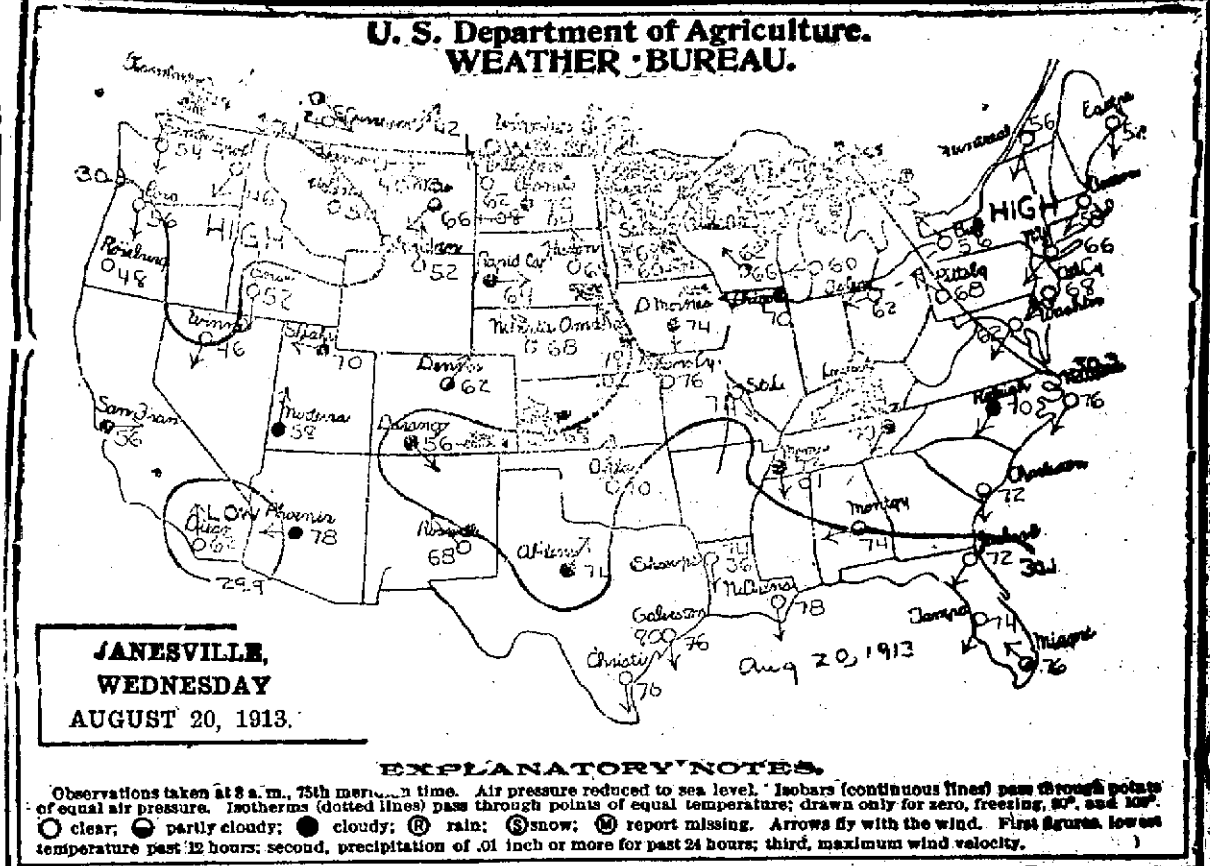

[SPECIAL TO THE GAZETTE.] New York, Aug. 20.—What promises to be the most spectacular athletic meet ever held in the United States has been arranged by the greater New York fair and exposition, to be held at Empire City Park during the three days beginning tomorrow. The cream of American athletic talent, together with a number of star performers from abroad, will be seen in the long list of events that make up the program.

Expensive Love. "But when you asked for my daughter, you told me you had money enough to support her in the style she was accustomed to," said the father, who had been touched. "Yes; but that was a year ago, sir," replied the young man. "Being engaged for a year is expensive work, sir."

Preferred a Well. When the kitchen water pipes broke Aunt Mandy surveyed the damage resentfully. "Gib me a good ol' hole in de ground," she sniffed.—New York Evening Post.

BASEBALL CHATTER. In Matsel, Cook and Williams, Manager Chance has three rookies who look good enough to hold down regular berths with the Yankees. Harry Smith's Newark team has increased its lead in the International league and now looks like a sure winner in the Barrow circuit.

Cy Seymour, for years one of the best known big leaguers in the game, received his unconditional release from the Buffalo club recently. Managers Evers, of the Cubs, is fast getting rid of his veteran players with the idea of building up a team of youngsters for the season of 1914. Honus Wagner is finding it hard to stay among the classy hitters this year. Of late the famous Pirate star has been batting under the .300 mark.

The transfer of Catcher Larry McLean from Cincinnati to the Giants gives him a fine chance to share in the world's series money this fall. A record of winning 17 out of 22 games places Pitcher Cutting, of the Milwaukee team, at the top of the American association list of fingers. FAMOUS FOOTBALL TUTOR WELL AGAIN

A. A. Stagg.

Alonzo A. Stagg, Chicago university's famous coach, is back in health again. Last spring it was feared he would be unable to assume his regular task this season, but it is now announced that he will be back on Marshall field in September.

Stagg had to quit last April and since that time has been at Idaho Springs, Colo. Open air life, with no worry attached, was his daily routine.

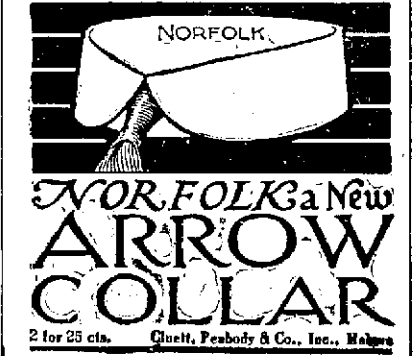

Old Lady Some Pedestrian. In 1851 an old Cornish fishwife of eighty-four, named Mary Callinack, walked from Penzance to London to see the great exhibition in Hyde park. The distance is nearly 300 miles. The old lady created a sensation and was noticed by Queen Victoria. She had vowed to call on the lord mayor before returning, and she carried out her intention, but, of course, was not permitted to walk back.

AN UNFAIR DECEPTION.
IF YOU had to take a very long journey into a distant land to be gone a long time, perhaps forever, how would you like not to be told that you were to go until a day or even a few hours before the time to start? Especially when everyone about you had known for a much longer time that you were going to take that journey, or at least were likely to take it. Wouldn't you say, "But how can I get ready in this little time? Why, I ought to have had weeks to arrange my affairs for my absence, make all my preparations, and say goodbye to my friends?" And wouldn't you be very much displeased that your family and friends had kept this important information from you?

Or, worse still, supposing, if it were possible, that even while you slept you were carried aboard a ship, and without a chance to make the least preparation, to leave a single instruction on the winding up of your business, to say one farewell, were started off on a journey, so long that no one knew when it would end.

Such things are almost unsupportable, aren't they? And yet, just this thing is being done every day. Or rather, something far worse. And done by people who dearly love those whom they treat so treacherously and unfairly.

In a hospital not far from here a young girl lies on her death bed. The nurse and doctors, and her family have known for at least a week that she cannot possibly live, and yet no one has told her that she is about to start on the long, long journey to that far off shore from which no traveler returns. She is not suffering any pain, she thinks she is going to get better, and they do all they can to encourage her in that thought. They make agonizing efforts to appear cheerful when they are with her. They tell her she is looking better and they make plans for the coming winter. The doctor says she will soon lapse into unconsciousness, and they are determined to keep this up until then.

Do you know, whenever I think of that poor girl being so deceived, and about so important a matter, I am sick at heart. Undoubtedly they mean the best, but don't you think they are making a cruel mistake?

We cannot tell a soul that it is to be born, and it has always seemed to me that to summon a soul out of stentery is a terrible responsibility. But when "that which draws from out the boundless deep turns again home," we can tell the departing soul that it is about to set sail back into the eternity from which it came and I think that when we fail to do it we shrink a solemn duty.

P. S.—Since writing the above I have talked with two or three friends on the matter, and I have not been too emphatic. One woman said she had done just this same thing: that her motive was to save her mother from suffering as she would if she had known that death, which she greatly feared, was at hand. Of course this point of view must be taken into account, but unless there is some such extreme fear of death it still seems to me it is fairer to let the traveler know of the journey he is to take.

HEART and HOME PROBLEMS

Dear Mrs. Thompson—Could you advise me how to take cherry spots out of brown woolen goods? Is there anything that will "set" the color of red flannel when you wash it? Thanking you in advance.

MRS. A. R. R. Pouring hot water through the stain will remove it. You might try taking it out with alcohol first, then use the hot water if it does not take out stain entirely.

Soaking in cold vinegar water before washing may help to set red flannel. It should be washed with a little vinegar in the water.

Dear Mrs. Thompson—How can I clean or wash feathers that were on a sick-bed? READER. They should be thoroughly fumigated to take away any danger of infection. All the infected articles should be placed in the sick room, a strong disinfectant placed in the room and the room kept closed up tight for twenty-four hours. Ask your druggist for the kind of disinfectant to use and how to use it.

Dear Mrs. Thompson—We are two girls sixteen and seventeen. (1) Are we too young to have fellows or have we plenty of time yet? (2) What kind of goods would be suitable for a bathing suit? (3) Are buns worn much now or are they tough looking? (4) I belong to the Baptist church and have been visiting the Catholic church with a girl friend and like it very much. Would you advise me to join it? (5) Are skirts split above the knee stylish?

TWO FRIENDS. (1) Too young to have "steady company," my dears, or to do any "thinking." Just be good friends with the boys for a while. (2) Serge silk, brilliantine. (3) They are not in style. (4) I cannot advise you in this matter. You had better wait until you are older before deciding on change your religion. (5) They are not. Only a few sensational women, with very bad

HOUSEHOLD HINTS

THINGS WORTH KNOWING.
When long silk gloves have been washed and do not stay up, cut a piece in the hem and run a narrow elastic through it.
In washing linoleum never scrub with a brush. Wash with tepid water and a dash of soap powder. When done rub with furniture polish.
To revive Oriental carpets they may be cleaned and the colors restored by washing them in sea water or in a solution of sea salt. This is practiced with success in the far east.
In watering house plants, put a teaspoonful of ammonia in the water once a week.

THE TABLE.
Harlequin Sandwiches—Cut one-half-inch slices of both brown and white bread. Spread these slices with butter and cottage cheese, and place four of them on top of the other, alternating the dark colored bread with the white. When well pressed together, slice through the four layers, cutting them into as thin slices as possible.
Pepper Cheese—Take green peppers, scorch slightly in a hot oven or over the coals, then with a sharp knife, remove seeds, and put in their place a small roll of cottage cheese. Roll up again, skewer together with a wooden toothpick, dip in beaten egg and cracker crumbs and fry in good vegetable oil to a golden brown. French Potatoes—Make a batter, very thin, and fry as potatoes, take out, spread with current jelly and powdered sugar and roll up.
Green Tomato Chow-Chow—Chop one-half bushel of green tomatoes, one-half dozen of green peppers and

water, stirring as the water is poured, that it may be smooth. Let cook rather briskly for five minutes, add the butter and the salt, stirring as it cooks. Take from the fire, add the milk and the egg well-beaten; pour into a well-buttered, shallow baking dish and bake for twenty minutes in a moderate oven, letting brown carefully before removing. Serve with the dish in which it was baked with a tablespoon.

The KITCHEN CABINET

HE rivers eat their banks. The morning sun dries up the mists. The ocean eats the land; Taxes eat up property. And pride eats out the soul—But moths the diet record hold. Because they eat a hole.

—Frisella Leonard.

HOUSEHOLD HINTS.

To outwit the moth, brush the fur or clothing put into the bags or wrapping and into the box or drawer set an uncorked two-ounce bottle of chloroform. This will not only kill the moths, but any eggs which may be in the garments.

Lemon jelly, or in fact any gelatine jellies may be remolded if they are carefully softened by heat. Do not allow the mixture to boil, or it will ruin the flavor. Pour into wet molds and chill.

Melted ice may be used in cakes, cookies and puddings. Chocolate ice cream, with the addition of a little gelatine, may be molded and served as a jelly.

Never throw away even a very small piece of soap. Save all the laundry soap in one dish, the toilet soap in another. The toilet soap may be melted in a little water and cornmeal stirred into it to make a good soap for the hands. The laundry soap, after melting, may be poured into molds to harden and the cakes may then be used for dish washing.

Every one knows how annoying and often destructive rocking chairs may be, used on a rug or carpet with heavy nap. If the rocker is used on a rug and the nap sends the chair toward the walls or other furniture, turn the rug so that the nap runs the other way. A piece of burlap the size of a tea towel is fine to keep the stove rubbed up. It may be dampened and is thick enough to save the hands.

A blacking box is enough to try the patience of a saint or a man. The cover is so attached to the box that it is hard to pry them apart. When once open, put the blacking in a large topped cold cream jar with a screw top, then there will be no trouble about getting the top off. A piece of sizer down makes a good polisher.

PRETTY BLUE FROCK OF CREPE DE CHINE

This pretty frock is made of dark blue crepe de chine. The skirt is plain and is embroidered around the bottom in red and is full at the waist line both at the front and sides, and is box-plaited in the back, where the fullness of the box-plait falls out at the lower part. The corsage is surplined and is trimmed with a deep collar of lace. The girdle is of blue and red striped silk, cut on the bias, and is finished with loops and ends.

This frock is made of willow green crepe. The skirt is made with a short plait on each side of the front, and is slightly full from the girdle and seamed in the center of the back. The seam is curved away on each side at the lower part. The corsage and sleeves are in one. The corsage is open in front, and the opening is partly filled in with dotted tulle. The collar is edged with plaited frills of willow green chiffon.

Soda water is not specially harmful, as it is simply carbonated water with or without flavoring. But the addition of ice cream, nuts, benzoate of soda, colored cherries and a few other trifles makes it not an article for steady diet or easy digestion.

Count up the number of times your boys and girls are there every day and you will surely find them on this list.

If the ice cream is pure which is taken with the soda water and not taken into the stomach too rapidly nor when too cold nor TOO OFTEN, serious harm may not result. But the big danger does arise from the manner of preparation and serving. No mother wants her children to drink soda water in any form which contains artificially colored flavors, benzoate of soda and coloring, and froth produced by soap bark. But even these are small evils as compared with the drinking glass. In a recent report written by a doctor in the east, he said several physicians have told him they have given up drinking soda water concoctions because they happened to see patients at the counters whom they knew to have infected mouths and lips. This physician advocates paper cups for soda fountains. They are more necessary there than in railroad trains, he says, because plain water is quickly drunk and contains no solid or viscid material to retain the infection. There is much need of education at this most common drinking place.

In one breath the distributor will tell you, "We don't have any but natural syrups; there is no demand for artificial stuff any more," and the next minute you will discover all their syrups contain benzoate of soda and coloring. What can be done? They insist benzoate must be used in

Every Day Talks for Every Day People

By FRANCIS JOYCE KENNEDY

It is claimed that woman's ignorance in handling the products of industry has helped the trusts enormously. It is also claimed that if women had taken their business as consumers as men take theirs as producers many undesirable situations would not have existed today.

Is that true? Your answer: In many homes the husband turns over his unexpended pay envelope, each week, thereby making his wife the manager of the household. He trusts her implicitly, because plain water is quickly drunk and contains no solid or viscid material to retain the infection. There is much need of education at this most common drinking place.

This is not saying a word about the part of home-maker. How many of us are daily endeavoring to become more proficient in the art of home-making, more tactful, more agreeable, more considerate and kind? How many? Are you? "It's narrowing," says a woman, "to be forced daily to figure on the price of butter, meat, eggs, to be continually buying to make both ends meet."

THIS TRANSPARENT GOWN FOR BOSTON

This remarkable transparent gown was imported from Paris by a society lady of Boston, who will wear it at "tea dances" this fall. Ordinarily, the gown appears no different from the usual garment worn by fashionable women, but immediately the rays of a strong light strike it, the transformation into an "X-ray gown" takes place.

Various cities have enforced an ordinance against wearing modifications of this gown which seems to be finding favor with the ladies, and other communities compel the wearers to walk on the shady side of the street.

Coffee's Worldwide Spread.

It is generally agreed that coffee first grew wild in Abyssinia, thence being taken to Arabia, and afterward to all parts of the civilized world in which it would grow. There are some twenty-five different kinds of coffee found in different parts of Africa, still growing wild in many sections. The name is supposed to be derived from the Arabic K'hawaw, or from the Abyssinian province of Kaffa.

FOR THE NECK AND SHOULDERS

A Free Prescription That Instantly Obliterates Blemishes, Tan, Freckles And the Marks Left By High Collars.

The Dutch neck and the evening gown too often expose the discoloration and blemishes of high collars or the effects of tan and freckles. It is easy to overcome these conditions and make the neck beautiful and white and soft and smooth—to overcome, in other words, every blemish and make the low neck as attractive as it is comfortable. This preparation can also be used on the shoulders and face, and it is marvelously effective to beautify the hands and arms.

If you want to try it, go to your druggist and get a one-ounce bottle of Kalux Compound. Pour the entire contents into a two-ounce bottle, add quarter ounce witch hazel, then fill with water. Prepare this at your own home. One application will delight you. It is deliciously cool and soothing and it is not affected by perspiration. It will not rub off.

If you put it on one hand only, or on one side of the neck and note the difference, you will see the wonderful change it makes instantly. The results are immediate and continued use of this preparation will keep your skin as soft and smooth as a child's.

What Is CRISCO?

For Frying—For Shortening—For Cake Making

Crisco is the best, the cream of vegetable oil.

Crisco is all vegetable. It remains of ideal consistency and does not separate.

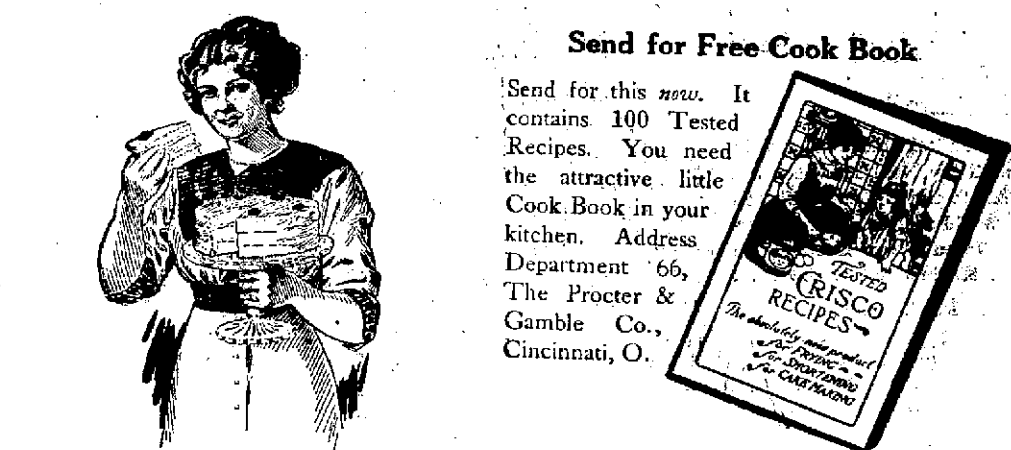

Crisco keeps sweet and pure indefinitely because the parts of the oil which turn rancid have been eliminated.

Crisco makes a richer cake than butter, because it is a richer fat. Crisco is 100 per cent pure fat; butter contains approximately one-fifth water, salt and curd.

Crisco makes fried foods more digestible, because Crisco itself is perfectly digestible.

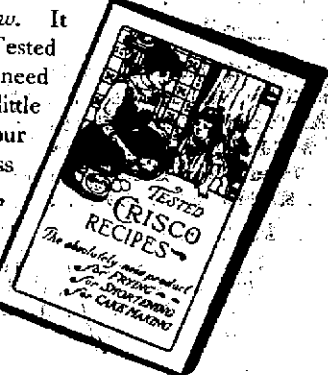

Crisco is a real food fat. Animal lard, and fats to which stearine has been added require a longer time to digest, taxing the digestive machinery.

Try Crisco today. Grocers sell Crisco in ever increasing quantities. It costs less than half as much as butter. Insist upon your cook using Crisco.

CIVIC IMPROVEMENT CLUB IS LAUNCHED

Vice Presidents Elected at Ward Meetings This Afternoon Will Nominate General Officers.

With an attendance that manifested great present interest and an enthusiasm that promised much for its future accomplishments, the ward mass meetings for women held in the school houses of the city this afternoon made progress toward the organization of a Women's Improvement Club. The women of the First Ward met at the Washington school, those of the Second Ward in the Adams school; those of the Third Ward in the Jefferson school; the Fourth Ward in the Garfield school, and the Fifth Ward meeting was held in the Lincoln school. All were called to order at three o'clock. Informal talks were given at each meeting outlining the purposes of the club, its ideals and ideas. Zona Gale's Civic Improvement Work in Small Towns was read at some of the meetings and proved to be very inspiring and suggestive of what can be accomplished by an organization of such as is planned. At each meeting a Vice-President was elected and they will meet to nominate officers for the city-wide Civic Improvement Club. The election will be held at a general mass meeting on August 27.

MAKE IMPROVEMENT AT BLIND INSTITUTE

Main Building Will Be Completely Rewired and New Fixtures Installed.—To Build Addition.

Improvements of an extensive character will be begun at the Wisconsin School for the Blind this fall. On the twenty-sixth of the month, bids will be opened for the complete rewiring of the main building and the installation of new and modern fixtures throughout. All the wires will be placed in conduits so as to avoid all danger of fire from crossed wires and defective insulation. A new switchboard will be installed in the power house. Hardwood floors will be laid in all the rooms. The west building will be remodeled into a dormitory for the help. Bids for a new addition in which are to be placed the dining room and kitchen and additional dormitories will be opened on September 4.

EXPECT BIG CROWDS HERE FOR LABOR DAY

Plans Complete for Celebration of Labor Day by Carpenters' and Joiners' Union.

The Labor day celebration held in this city under the auspices of the United Brotherhood of Carpenters and Joiners, local order number 336, promises to eclipse any previous celebration ever held in this city. The main feature of the day will be a monster parade at ten-thirty in the morning in which the labor unions of Beloit and Janesville will be represented and the officials in charge of the day announce an unusual large number of floats.

In the afternoon various forms of entertainment have been provided for the amusement of the large crowds expected and, besides free vaudeville acts, the carpenters have arranged for an exhibition of trained animals. The platforms for the street entertainments will be erected on North and South Main street, South Academy and at the Corn Exchange. There will be two balloon ascensions in the afternoon, one at two-thirty and the second at five o'clock.

In the evening band concerts and a dance at the Assembly hall will be the features of the entertainment. As both the Moose and Bower City bands have been chartered in other cities the Beloit band has been hired to play.

A large crowd is expected to be in Janesville Labor day as the surrounding country has been well canvassed and the celebration has been well advertised.

Author of "The Rubaiyat."

Edward Fitzgerald was utterly careless of his fame. He lived to be an old man, yet not one in a million of his fellow countrymen regarded him as a poet, even if they had heard his name mentioned as an old chum of Alfred Tennyson. Yet he wrote "The Rubaiyat of Omar Khayyam" long years before his death. He kept it "chucking about," apparently not thinking it worth publishing, and when he did print a few copies nobody took any notice of it. Today "Omar" is one of the most famous poems in the world.

LA PRAIRIE

UNCLE WALT The Poet Philosopher

Copyright, 1909, by George Matthew Adams BY WALT MASON

When the world seems dark and gloomy as a hearse, and the luck is daily growing worse, then it makes our lives more pleasant if there is a stray man present, who must take the roughest and the roughest, just at present man is reading beard and robe, since it costs so much to live upon this globe.

THE MIDDLEMAN

Kicked him, and the Middleman must do the stunt of Job. Oh, the Middleman we've seen at the office, we've seen him get our fingers on his throat, as David slugged Goliath we shall sing this forth parish. We ever get our clutches on his coat. When we take a slice of bread from the pan, and the butcher's swollen bill we will scan, then we hoist the crossbones banner, saying in a warlike manner: "We must go and lynch a moulted Middleman!" When man buys a suit of clothes he wails and rants, "I am paying seven dollars for my pants! In a smoking red hot griddle should be placed the man of middle, with his sisters and his cousins and his aunts!" And the Middleman, he through the alleys sneaks; not a friend in the city to him, for he is shunned, or he is greeted by bombardment of repeated, by a chorus of indignant howls and shrieks!

SIDEWALK SKETCHES

SPECULATION.

By Howard L. Rahn.

Speculation is a simple, precise and rapid method of letting go of money that belongs to somebody else. Some of the greatest speculators in the get-rich-quick scheme are those who did not have any money of their own to let go of, but who borrowed 2,000 bushels of May corn from the bank and jollied their margins along with the aid of the Sunday school treasury. Hundreds of people have convinced everybody of the righteousness of this business, except the United States marshal, who is a cold-blooded and unimaginative individual with the romantic temperament of an artificial leg.

Speculation is most attractive to the man who objects to working for what he gets. It is highly irritating to a blue-blooded employee of a long sort, but it is the local agent for a Mexican rubber plantation living a luxurious life on deferred dividends and pork tenderloins, simply by selling stock to people who don't know whether rubber grows on bushes or is a by-product of a tree. This makes the employee envious and he immediately begins to speculate with the nearest paddy wheel, which sends him home a ruined man.

The first school of speculation is to get in on the ground floor and get away before the October meeting of the grand jury. Some forms of speculation yield large, swollen fortunes which are later dissipated by court costs and attorney fees, getting so that a man can't sell the serum from the domesticated jack rabbit as a positive cure for the hay fever, but having come to the hay fever, flushed with postoffice inspection, he is forced to drag his hump into court in a ruffled Prince Albert. A can can get up a piteous trumpet with which the weaker heart hears the whining of a caterpillar at a distance of three miles, but the minute he advertises it on its merits and begins to lay up a stock of \$1 he has to lay off and break rock for the general public.

Speculation is all right when it is backed by a certificate of deposit calling for 4 per cent interest compounded semi-annually. Even then, it is a good thing to watch the quarterly statement.
